

BOYAPALLY SHASHANK REDDY

1-05-1008, Bhoopathi Rao Nagar, Old Alwal, Near F B Nagar, Alwal, Medchal, Telangana-500010, India.
Phone: [+91-98499-65690](tel:+91-98499-65690), Email: bshashank2209@gmail.com, GitHub: [shashankreddy999](https://github.com/shashankreddy999), LinkedIn: [shashankrb](https://www.linkedin.com/in/shashankrb)

EDUCATION and ACADEMIC QUALIFICATIONS

University of Florida, Gainesville, Florida.

Aug '22 – May '24

Master of Science, Computer Science, Incoming Graduate Student

Jawaharlal Nehru Technological University College of Engineering Hyderabad, Hyderabad, India.

Aug '18 – Jun '22

Bachelor of Technology, Computer Science & Engineering, CGPA: 8.45/10 or 3.88/4 (according to WES evaluation)

ACADEMIC PROJECTS

- **COVID-19 Help Desk, team size: 4** Mar '21 – May '21
Objective: Provide information about the availability of beds and various medications available in each hospital for the citizens, along with filters based on their location during the severe second wave of COVID-19.
Role: Team Lead, Full Stack Web Developer, and Mobile Application Developer.
Tools used: ReactJS, Material UI and other various libraries, Firebase, React Native for Mobile Application Development.
- **Object Detection Using YOLO-v3, team size: 2** Dec '20 – Jan '21
Objective: Develop a computer vision program that can detect basic objects in the frame of the camera, and announce objects in vision, to help visually impaired people.
Role: Machine Learning and Computer Vision Developer.
Tools used: TensorFlow, OpenCV, Darknet-53, YOLOv3, Python.
- **No Touch Volume Controller, team size: 2** Oct '20 – Nov '20
Objective: Implement a computer vision program such that the volume can be changed using hand gestures without human touch.
Role: Computer Vision Developer.
Tools used: Mediapipe, OpenCV, pycaw, Python.

INTERNSHIPS

- **Honeywell Technological Solutions (Aero Division), Software Engineering Intern, Hyderabad** Mar '21 – Present
 - Migrated the Business Management System which manages the Billing and subscription service used by AMRs from Internet Explorer to Chromium based browsers
 - Used struts framework along with JSP. Saved upto 165 hours per month of manual work done by AMRs. Boosted efficiency.**Takeaway:** Gained knowledge how legacy applications work and how they are maintained.
- **Honeywell Connected Enterprises, Software Engineering Intern, Bangalore** Apr '21 – Jun '21
 - Developed an automated testing environment using Octopus and Protractor in an Agile environment, conserving the time for the task from 60 to 5 mins. Boosted the efficiency up to 80%.
 - Used React in the Front-end and Django for backend along with usage of Microsoft Azure PostgresDB and Storage.**Takeaway:** Learnt hands-on projects and an idea of the way industry works along with its principles.
- **KPMG International, Data Analytics Virtual Intern, WFH** Apr '20 – May '20
 - Analysed the quality of the dataset provided by a medium-sized bike accessories company, Sprocket Central.
 - Assessed the dataset, performed data transformations, feature engineering, and modelling using various tools like Tableau and Power BI. It led to the discovery of 40% more potential customers based on their demographics and transaction history.**Takeaway:** Worked on data from the real world, realized the potential hurdles one might face using the real-world data, and the steps to overcome those hurdles in data analysis.

PUBLICATIONS and PRESENTATIONS

- **Published a research article** *Natural Language Processing with disaster tweets using bi-directional LSTM* in the Journal of Xi'an University of Architecture and Technology. (May '21, ISSN: 1006-7930)
Takeaway: Grasped the basics of bi-directional LSTM in NLP by the use of the tweets collected during disasters.
- **Published a research article** *Comparative Analysis of Different Pre-trained Deep Learning Models for Brain Tumor Detection* in High Technology Papers, Volume 9, Issue 27. (Sep '21, ISSN: 1006-6748)
Takeaway: Compared various pre-trained neural networks and analysed which can be used for practical purposes.
- **Attained second position** in paper presentation on *Facial Recognition and Attendance System Using dlib and Face Recognition Libraries* in a state-level conference conducted by Computer Society of India, since 1965. (Dec '20).
Takeaway: Understood how paper presentations are organized, met many industry leaders and got to know their experiences.

TECHNICAL SKILLS

Technologies and Tools: ReactJS, React Native, ExpressJS, MongoDB, PostgresDB, MySQL, Django, Git and GitHub, Bamboo, Postman, Octopus, OpenShift, Computer Vision, Image Processing, Machine Learning, Neural Networks.

Languages: C, C++, J2SE, Python, JavaScript, HTML and CSS.

CERTIFICATES

- 30 Days of Google Cloud Program, Dec '20.
- Certificate of Merit, CSI, Telangana. Dec '20.
- HackerRank Certified Python Programmer, Jun '20.
